EXPERIENCE

Backend Developer (Laravel / PHP)

Pearl Organisation

November 2025 – Present

Dehradun, Uttarakhand

- Developing and maintaining scalable backend applications using Laravel (PHP) with clean MVC architecture.
- Worked with MySQL databases, implementing optimized queries, migrations, and relationships.
- Collaborated with frontend teams to integrate backend services smoothly and securely.
- Implemented authentication, authorization, and role-based access control for enterprise applications.

Full Stack Developer

ARC Solutions

June 2025 – October 2025

Nehru Colony, Dehradun, Uttarakhand

- Handled complete end-to-end development of diverse and complex client web applications as a Full Stack Developer, significantly improving overall project delivery efficiency and team productivity by **20%**.
- Collaborated closely with clients to gather detailed requirements, deliver timely progress updates, and ensure clear, transparent communication, ultimately achieving an outstanding **95%** client satisfaction rate.
- Implemented feature updates and enhancements, improving performance, reducing website load time by **30%**, and increasing overall user experience across multiple devices and platforms.

Web Development Training Intern

SLOG Solution PVT. LTD.

June 2024 – July 2024

Dehradun, Uttarakhand

- Mastered HTML, CSS, and JavaScript fundamentals, leveraging Bootstrap to build responsive, user-friendly, and visually appealing web interfaces with cross-browser compatibility and modern design practices.
- Learned to integrate APIs into web projects, efficiently fetching and displaying dynamic data with authentication, error handling, third-party services, real-time updates, seamless integration, and smooth user experience.

PROJECTS

AI Mock Interview - Developed a browser-based mock interview platform using React, Tailwind CSS, and ShadCN, enabling users to simulate real interview experiences. Integrated webcam support for recording responses and Google Gemini AI for analyzing answers, generating feedback, and providing performance insights. Used Clerk for authentication and Firebase for storage, ensuring a seamless and secure experience. ([Link](#))

Affordable Street Eats - Discover delicious, budget-friendly bites near you! Built with Next.js, Tailwind CSS, Express.js, MongoDB, and ShadCN for a seamless food-finding experience. ([Link](#))
